"Our position is rather precarious," said the leader of a small band. "General Bananio is likely to march against us at any time."

"That's the difficulty. There are so many generals about that an effort to get away from one may look like a precipitate attack on another."

## Have You a Bad Back?

Does your back ache night and day, making work a burden and rest impossible? Do you suffer stabbing, darting pains when stooping or lifting? Most bad backs are due to hidden trouble in the kidneys and if the kidney secretions are scant or too frequent of passage, proof of kidney trouble is complete. Delay may pave the way to serious kidney ill. For bad backs and weak kidneys, use Doan's Kidney Pills—recommended the world over.

### A Kansas Case

Capt. Nicholas W. New, 222 E. First St., Kansas City, Mo., says: "The hardships I endured in the Civil War made me helpless with kidney complaint. I had pains in my back were awful and the kidney secretions gave me no end of distress when passing. The first box of Doan's Kidney Pills relieved me and continued use fixed me up all right. I haven't suffered since."

For growing peanuts under dry conditions, a few points are essential in order to insure success. First, the land should be fitted in a thorough manner, plowed about the same depth as for corn, harrowed immediately and firmed down to conserve moisture. If possible it should be done with a disk harrow set straight, to subsoil firmly the lower strata of the soil. The point of next importance is good seed and it is possible that the seed should be secured near where the crop is to be grown rather than from some distant section.

Many of the experiments in the use of peanuts on the semiarid lands have failed because seed was procured from a region where there was an abundant rainfall. Locally grown seed is not so good as that which may be obtained from some other section.

## FROM EGYPT'S FAMOUS QUEEN

Colored Man's Explanation of How His Wife Acquired Her Somewhat Peculiar Name.

Dean Hermann Schneider of the college of engineering in the University of Cincinnati, who is helping the city of New York to organize its system of continuation schools and kindred activities, many years ago when he lived in Maryland engaged a colored man and his wife to help in the upkeep of the house and premises. This part of the preliminary conversation Dean Schneider tells with gusto:

"What is your name?"

"Tom Burgee, sah."

"Married?"

"Oh, yes, sah."

"What's your wife's name?"

"My wife's name is Clara-Peters."

"How can that be, if your name is Burgee?"

"Oh, that's her first name; just her first name. All of her name Clara-Peters Burgee."

"What do you call her?"

"Clara-Peters."

"How did she get that name?"

"Well, sah, her old father, he was educated; he could read, and he terrible fond of readin' the Bible and Shakespeare, and such books, and namin' his children a'ter folks he read about. So, when Clara-Peters was born, he just natchally name her Clara-Peters, a'ter that old queen of Egypt!"

### Absent Minded.

Everything—in the professor's eyes—depended upon this last test. His work of research for years was now about to either prove a success or a failure.

To the P. the air seemed electrified, and he had success in view when he heard the familiar step of a doctor acquaintance approaching.

"Well, what is it, old man? Can't you see I'm frightfully busy?"

A smile broke over the doctor's face.

"It's a bonnie boy, sir—a little son and heir."

"All right—all right!" Irritably growled the professor, whose thoughts were far removed from the outside world. "Be so good as to send him away, but ask him what he wants pestering around here at this unearthly hour, will you?"

Profuse explanations follow.

### This Happened in Boston.

"Cynthia, will you recite, 'Mary Had a Little Lamb' for us?" asked the kind old gentleman.

"I do not care to, much as I should like to oblige you," replied the little girl with the horn-rimmed eyeglasses.

"As a matter of fact, the poem has little, if any, literary value, and in addition is not true to life as it exists today. Under the restriction in thrade, due to the meat trust, Mary could not own an entire lamb. She might have had a chop, but beyond that the poet's imagination must be blamed."—Philadelphia Public Ledger.

## The reasons for Certain-teed Roofing

Every buyer needs the proper assurance, when he pays for the best quality, that a second or third quality will not be delivered. The market is flooded with too many brands. Some manufacturers with poor facilities too often meet competition by cutting quality. Some wholesalers

buy any old quality, put their labels on it, and say it is the best. Our Certain-teed label is backed by the written guarantee of the world's largest manufacturer of asphalt roofings. It gives each buyer the assurance wanted, and our unequalled facilities for manufacturing enable us to sell it at a very reasonable price.

These are the reasons for

## Certain-teed Roofing

We invite every one interested to come to our mills and see how we make the goods. We know that our Certain-teed Roofing is the best quality that we can make. It's the best quality that can be made to last and remain waterproof on the roof. It is made with that one purpose in view. We also make cheap grade, poor quality roofings to meet the demand for very temporary roofs, but the Certain-teed label goes only on our best quality, longest life product. It is the grade which carries our Company name and endorsement and guarantee—1-ply 5 years, 2-ply 10 years, 3-ply 15 years.

If you want the right quality and want to be sure you are getting what you pay for, insist on the Certain-teed label. The price is reasonable. You can tell the quality of a piece of roofing by looking at it. The man is not living who can take three kinds of roofing of different qualities and tell with any degree of accuracy the length of time each one will last on the roof. He cannot tell their relative values by looking at them. Why take the chance of guessing, when you can get the safest guarantee on the best quality goods at a reasonable price.

### LET'S BOOST BUSINESS

Less Politics—More Prosperity

We have had enough starvation business—enough of political "circles" of every party with their snarling and bawling—enough of politicians who promise economy and honesty in order to get into office and then practice the art of extravagance and then pay for their party rather than for principles and right, etc. The cost of living is not going down. Let us get on after good things and make enough money to pay for the cost of living, whatever it may be. We don't want cheap living—we want good business and good living for everybody and if we all pull together we will get them.

The game of the politician is to promise everything. Many of them ought to be prevented from running for office and then practice the art of extravagance and then pay for their party rather than for principles and right, etc. The cost of living is not going down. ### Marital Diplomacy.

Plunger—I felt awfully sorry for a poor guy down at the exchange today.

He lost five thousand on cotton and all the boys were gazing him, and as he started off home they taunted him with the prediction that his wife would land on him roughly. The poor chap acted as though he felt pretty bad about it.

Mrs. Plunger (sympathetically)—Poor fellow! No doubt he used his best judgment, and if his wife turns on him because of his reverses she is not worthy to be called wife. But, who was the man?

Plunger—Why—er—it was me.—Woman's Home Companion.
